

BOYS & GIRLS CLUB
OF FOND DU LAC

Technology Acceptable Use Policy-Members

Boys & Girls Club of Fond du Lac is committed to providing safe use of technology and online safety for members. The acceptable use policy provides the framework for those safety practices and procedures.

CLUB MEMBER USAGE

Before a member will be allowed to use Club technology equipment or their personal device, both the member and his/her parent/guardian will need to read and sign the Technology Acceptable Use policy and return it to the Club. Under this policy, the following relevant principles shall apply:

Devices shall include existing and/or emerging technologies and devices that can take photographs, play and record audio or video, input text, upload and download content and/or media and transmit or receive messages or images.

Club purposes shall include program activities, career development, communication with experts and/or Club peer members, homework and Club activities. Members are expected to act responsibly and when using technology resources. Members bear the burden of responsibility to inquire with staff when they are unsure of the permissibility of a particular use of technology prior to engaging in its use.

Authorized use: Club devices and personally owned devices are permitted for use during approved Club times for Club purposes and in approved locations only. The Club expressly prohibits the use of Club devices or personally owned devices in locker rooms, restrooms and other areas where there is an expectation of privacy.

Appropriate use: Members may not use any technology to harass, threaten, demean, humiliate, intimidate, embarrass or annoy their peers or others in their community. Any inappropriate use of a Club or personally owned device, as determined by Club staff, can lead to disciplinary action including but not limited to confiscation of the device, immediate suspension from the Club, termination of membership or other disciplinary actions determined to be appropriate to the Club's existing disciplinary policies including, if applicable, referral to local law enforcement.

Loss and damage: Members are responsible for keeping devices with them at all times. Staff are not responsible for the security and condition of the member's personal device. Furthermore, the Club is not liable for the loss, damage, misuse or theft of any personally owned device brought to the Club.

Communications: Members must be aware of the appropriateness of communications when using Club or personally owned devices. Inappropriate communication is prohibited in any public or private messages, as well as material posted online. Inappropriate communication includes but is not limited to the following:

- Obscene, profane, lewd, vulgar, rude, inflammatory, threatening or disrespectful language or images typed, posted or spoken by members;
- Information that could cause damage to an individual or the Club community or create the danger of disruption of the Club environment;
- Personal attacks, including prejudicial or discriminatory attacks;
- Harassment (persistently acting in a manner that distresses or annoys another person) or stalking
- Knowingly or recklessly posting false or defamatory information about a person or organization; or
- Communication that promotes the destruction of property, including the acquisition or creation of weapons or other destructive devices.

If a member is told to stop sending communications, that member must cease the activity immediately.

Cyberbullying: Members may not utilize any technology to harass, threaten, demean, humiliate, intimidate, embarrass or annoy their peers or others in their community. This behavior is cyberbullying, which is defined as bullying that takes place using emerging technologies and devices. Any cyberbullying that is determined to disrupt the safety and/or well-being of the Club, Club members, Club staff or community is subject to disciplinary action.

Examples of cyberbullying include, but are not limited to:

- Harassing, threatening or hurtful text messages, emails or comments on social media.
- Rumors sent by email or posted on social networking sites.
- Embarrassing pictures, videos, websites or fake profiles.

Members may not attempt to gain unauthorized access to the Club's network, or to any other computer system through the Club's network. This includes attempting to log in through another person's account or accessing another person's files. Members may not use the Club's network to engage in any illegal act, including, but not limited to, arranging for the purchase or sale of alcohol, tobacco or other drugs; engaging in criminal activity; or threatening the safety of another person. Members may not make deliberate attempts to disrupt the computer system or destroy data by spreading computer viruses.

Monitoring and inspection: Boys & Girls Clubs of Fond du Lac reserves the right to monitor, inspect, copy and review files stored on Club-owned devices or networks. In addition, BGCFDL reserves the right to inspect and/or review personally owned devices that are brought to the Club. Parents/guardians will be notified before such an inspection takes place and may be present, at their choice, during the inspection. Parents/guardians may refuse to allow such inspections but the member may be barred from bringing personally owned devices to the Club in the future.

Parental notification and responsibility: While BGCFDL's Technology Acceptable Use Policy restricts the access of inappropriate material, supervision of internet usage might not always be possible. Due to the wide range of material available on the internet, some material might not fit the particular values of members and/or their families. Because of this, it is not considered practical for BGCFDL to monitor and enforce a wide range of social values in student use of the internet. If parents/guardians do not want members to access information beyond the scope of the Technology Acceptable Use Policy, they should instruct members not to access such materials.

Digital citizenship: Club members shall conduct themselves online in a manner that is aligned with the BGCFDL Behavior Support Policy. The same rules and guidelines members are expected to follow offline (i.e., in the real world) shall also be followed when online. Should a member behave online in a manner that violates the BGCFDL Behavior Support Policy, that member shall face the same discipline policy and actions they would if their behavior had happened within the physical Club environment.

Club-owned-and-operated technology: Members are expected to follow the same rules and guidelines when using Club-owned technology. Club technology and systems are the property of the Club, are intended to be used for Club purposes and are to be used during approved times with appropriate supervision. Club members shall never access or use Club technology or systems without prior approval.

Digital citizenship and technology safety training: All members who wish to use a Boys & Girls Clubs device or equipment will be required to successfully complete a BGCA-provided digital citizenship and technology safety training. This training is required for all members annually.
